Cast Iron Coat and Hat Hook

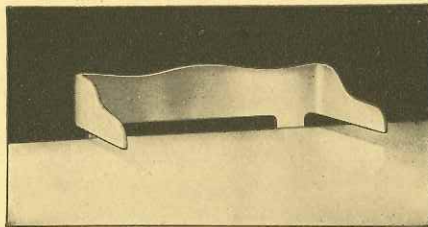

No. 398 Cast Iron, Coat and Hat Hook. $3\frac{1}{2}$ " High, $4\frac{1}{2}$ " Projection. White Porcelain Enamel. Wrapped and Packed in bulk without screws.

Nothing sets off an installation of White Porcelain Enamel tables and stools better than neat rows of these White, bright attractive coat and hat hooks in the White Porcelain (Sani Metal) finish.

Weight	500	250	100	50	Less
Per 100	Lots	Lots	Lots	Lots	Lots
45 Lbs.	.32	.34	.36	.40	.44

Porcelain Enamel Set Ups

No. 559 Porcelain Enamel Set Ups

This new design, our No. 559 SET UP, does not set flat on Counter, like the old style No. 359, but has a one inch space between the Counter and the bottom of the bracket, so that food or liquid cannot collect at the corners, and permits proper cleaning of the Counter, offering no place for food or vermin to locate.

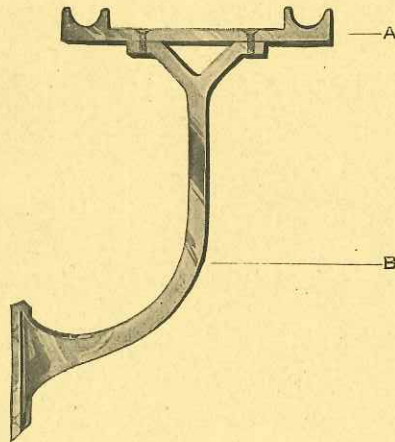

Height $2\frac{5}{8}$ inches; width 3 inches; length $12\frac{1}{2}$ inches, with $3\frac{3}{4}$ inch lugs.

A place to set salt and pepper, sugar, catsup, vinegar and oils is necessary on all lunch counters. While they can be set around at random, in most well regulated, sanitary establishments, a White Porcelain Enameled Set Up is used.

This SET UP sets on the counter, the open part facing customer and has two $3\frac{3}{4}$ inch lugs for screws that permit the fastening of SET UP to counter. Can be used on wood or Sani-Onyx Top Counter.

Cast Iron Porc. Enamel. Weight ea. 3 lbs.	1.10	1.20	1.30

Cafeteria Rail Bracket

No. 394 Cafeteria Rail Bracket

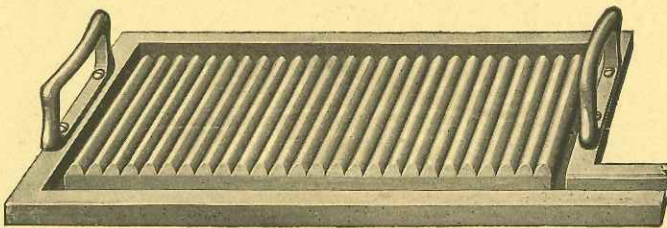

A neat, sanitary designed bracket that will harmonize with other fixtures. This is at present the only standardized cafeteria rail bracket on the market.

Dimensions—9 $\frac{3}{4}$ " High, Projection 7", Width at top 6" with $\frac{3}{4}$ "x $\frac{3}{8}$ " recess for round rail. If a flat bar is to be used, part "A" can be turned over and flat bar fastened to it. Part "B" is fastened to counter through three holes in the base part.

No screws supplied or machined work done for screws.

No. W 1 Sanitary Automatic Tub Butter Cutter

Hotel Keepers and Restaurateurs

Who desire to serve their patrons with clean food have been disgusted with the necessity of forming their butter patties by hand. This cannot be otherwise than unclean, no matter how much pains may be taken. With this machine all such trouble is avoided, as the butter need not come into contact with the hands of the worker.

It is a time saver, as each revolution of the crank automatically cuts off three patties, at the same time pressing the butter down through the openings just far enough so as to be ready for the next revolution.

The patties are uniform in size and shape, so that each pattie is a duplicate of the others.

The thickness of pattie is regulated by the screw threads on the plunger, so that we can send you a machine that will cut 35, 40 or 50 patties to the pound as you may order.

The cylinder can be removed from the frame, filled with butter and put back, then all that is necessary is to turn the handle and the butter is cut into perfect patties, the whole being done at the rate of from 30 to 40 patties per minute.

The machine is made of the best material throughout, there is nothing that can get out of order or break, and all parts that come in contact with the butter can be put into the dish pan and washed as easily as a knife or a cup.

We can send you a cylinder with round or with square openings, so that you can have your patties round or square as you prefer.

All orders must either specify, whether SQUARE or ROUND cut is wanted; also whether the cut is for 30 pieces, 40 pieces, or 50 pieces to the pound.

We can supply this same style machine to cut 65 or 75 patties at same price but delivery will be materially delayed.

No orders can be entered until this full information is obtained.

Packed in individual cartons, wt. 10 lbs. ea.

1/2 dozen lots or more.....	\$13.00 ea. list
Less	14.00 ea. list

No. W 2 Sanitary Adjustable Pound Brick Butter Cutter

This Butter Cutter is the only adjustable one in existence and can be adjusted to cut any desired number of patties—from 28 to 100 pieces from a one pound brick. In fact, this machine can be regulated by the turn of the screw on the right side of the machine, to cut any number of pieces according to the price of butter, and it will cut six pounds of butter in one minute.

The patties are delivered separately in the receptacle without handling, and it is therefore absolutely sanitary in every respect.

The machine is well built—no parts to come loose and has only 3 wires, each one with its own tightening device which does away with the use of any tools, and these wires can be renewed instantly if necessary. New wires will be supplied at very small cost.

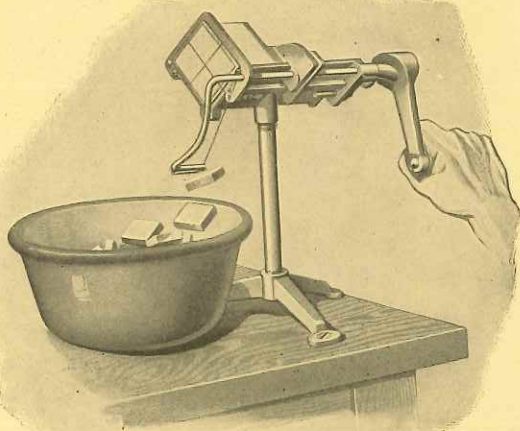

There is absolutely no waste as any divisions desired can be made, and furthermore, this machine has warm weather advantages when butter becomes sticky and soft. This machine will prevent the pieces sticking together which is the great trouble users have now with any other butter cutter on the market.

Packed in individual cartons, wt. ea. 10 lbs.

1/2 dozen lots or more	\$13.00 ea. list
Less	14.00 ea. list

No. W-3 Sanitary Adjustable 2 lb. Brick Butter Cutter

1/2 dozen lots or more	\$18.00 ea. list
Less	19.00 ea. list

No. 495 Sani-Metal Griddle Greaser

Another addition to our fast growing line of sanitary products for kitchen use.

Oval shaped, 4 inches wide, 6 inches long over all. Made of iron, genuine porcelain enamelled, (bath tub finish). Handle and body are of one piece and therefore absolutely substantial. Opening of handle $1\frac{1}{4}$ by 4 inches. Lots of room for fingers. Greaser part made of the very best $\frac{1}{4}$ inch wicking.

Griddle Greasers are nothing new, but the ones sold heretofore are made of nickel plated metals, and therefore not within the scope of modern ideas and demands. The handles, too, were light and flimsy and not solid enough.

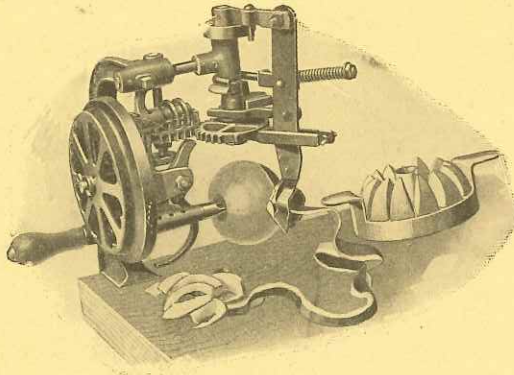

This "Sani-Metal" Griddle Greaser will appeal to every owner and operator of griddles.

Weight, each, with wicking, 2 pounds.

Price, \$2.00 each, complete.

Price, 50 cents each for extra wicking, rolled, ready to insert.

No. Bu-1 Success Apple Parer, Corer and Slicer (Cuts 14 Slices)

This machine takes off an exceptionally thin skin from apples of any size, which feature is not possible in the average constructed apple paring machine.

Apple is removed from machine automatically.

Machine is so constructed that parings and juices drop free from any working part of the machine, insuring perfect unhampered operation, without being handled after paring is removed.

This device is not a price constructed article, but is a practical, high class, perfected tool that must be kept clean, and well oiled, will last for years, there being nothing to get out of order or break if properly taken care of.

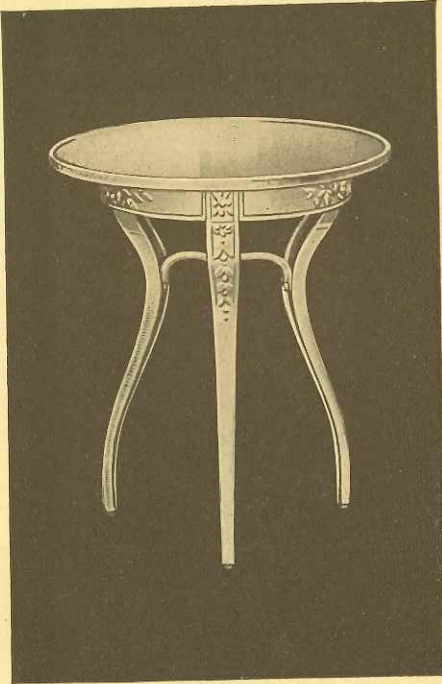

The corer and slicer are separate devices, a handmade tool, which assures absolute accurate, economical work being done, more so than on a machine that attempts to pare, core, and slice all in one operation.

Packed in Individual Cartons, ready for shipment, weight, each 10 lbs.

$\frac{1}{2}$ Doz. Lots or more.....	\$15.00 Ea. List
Less Lots	\$16.00 Ea. List

Tables

SANI-ONYX TOP AND SANI-METAL BASE

No. 306C-122

Our many satisfied sales have proven the fact that this table is the ultimate table for soda and light lunch use.

Appearance—Tops are our well known "Sani-Onyx," in demand always by high-class caterers. Clean-cut, clear lines, a table you will be proud to own, and patrons will feel a man who is so exacting as to install such sanitary equipment will be equally exacting in foods served.

Foundation—Every part of the base is metal, having just enough scroll to give it a touch of beauty. Takes up very little floor space. Can be easily kept clean when finished in Genuine White Porcelain Enamel.

No. 306C-122—Patented—30 in. High, WITH SANI-ONYX TOP

$\frac{3}{4}$ in. Flat Sani-Onyx Tops can be supplied on all Tables. Price see page 76 $\frac{1}{2}$.

Verde Antique Finish, same as Semi-Oxidized Copper, List, less current discount

Racine, Wisconsin, supports willingly one of the most attractive confectionery stores in the country. The color scheme and fixture designs are the pride of the owner and the boast of his patrons.

Prominent and harmoniously beautiful is the installation of our No. 20WH chair in the mahogany finish, with our latest and best table creation, our No. 306C-122 24 in. Sani-Onyx top with Genuine White Porcelain Enamel base.

Exclusive and original in design this table appeals to the caterer who desires to place his establishment in a class by itself. Our season's offer of this table will be limited to a few high class installations in cities of 10,000 or more.

David C. Schindel, a Hagerstown, Md., druggist says: "In refitting my store the only thought was to put in the best of everything, for that reason I put in your SANI-ONYX TOP, SANI-METAL BASE TABLES.

"I found them not only to be the best table I have seen, but also the most durable and pleasing to the customers, giving the store a clean, neat white appearance."

Our No. 306C-122, SANI-ONYX TOP, SANI-METAL BASE TABLES and No. 35H chairs were installed. The No. 411-349 Stool with No. 256E bracket are shown in front of the fountain.

A fine view of a Wichita, Kansas, drug store, showing our No. 4B-112 tables with No. 10WBH chairs on main floor, and No. 308 Series table in booths. Sani-Onyx Sani-Metal fixtures are seen only in the higher class catering establishments.

They are an investment—not an expense to be repeated year after year. To be sure, they cost a little more to begin with, but distributed over a few years this expenditure shows as a positive economy.

Sept. 26th, 1917.

I have had your tables, chairs, and stools installed fifteen months, and I surely have never regretted installing them, as they are very good looking fixtures, easy to keep clean, and our patrons always feel as though they are being served at sanitary tables, and they never fail to remind us of their good looks and cleanliness.

And during the summer months, they give a very cool appearance.

Very Truly Yours,

(Signed) CARSSOW DRUG COMPANY,

A. E. Carssow, Prop.

Our No. 4B-112, 24 inch Round Porcelain Enameled Table, No. 35-H Mahogany Chair, and No. 405-349 Porcelain Enameled Stools installed.

Dear Sirs:
I am highly pleased with the tables and they are an added improvement to my store.
I have found the tables to be JUST AS REPRESENTED—neat in appearance, perfectly sanitary, easy to keep clean, and very durable. Yours truly,

Pottsville, Pa., Aug. 15, 1917.

THEO. D. SCHNEIDER.

As to your tables and chairs, I have them in my store at Jackson, Mich., and also here and they cannot be beat. Yours truly,
Aug. 7, 1917.

APOLLO CONFECTIONERY, 28 W. High St., Lima, Ohio

SAMUEL ZIUVAS.

David C. Schindel, a Hagerstown, Md., druggist, says: "In refitting my store the only thought was to put in the best of everything, for that reason I put in your SANI-ONYX TOP, SANI-METAL BASE TABLES.

"I found then not only the best table I have seen, but also the most durable, and pleasing to the customers, giving the store a clean, neat white appearance."

CONRAN'S CONFECTIONERY & SODA SHOP

So. Manchester, Conn.

In view of the fact that since I have installed your SANI-ONYX TOP TABLES, I have noticed a marked increase in my business.

I am sending you, under separate cover, a photograph of my Ice-Cream Parlor in hopes that other merchants may be tempted to use your tables.

I now cater to the best trade in my city and note the marked satisfaction of both my customers and clerks in the use of these tables and can readily say they are the "last word in sanitary tables."

Aug. 16, 1917.

Sincerely yours, THOMAS F. CONRAN.

JUDSON LAUGHLIN, A. M. M. D., Germania, Iowa.

Gentlemen: The Sani-Onyx tables we purchased from the Des Moines Drug Co., this season certainly meet the extraordinary demand for sanitation inherent in this work and are the most satisfactory table I have ever used. From the moment they were installed they have been the center of attraction—a very great drawing card in my Soda Fountain business and I am astounded with the durability of their make up. The comfort with which one sits in the chair and the pleasure derived from the use of these tables are beyond comprehension. Yours truly,

Aug. 16, 1917.

JUDSON LAUGHLIN.

These Tables, Stools and Chairs are an economical purchase. They will look as good ten years after date of installation, as they do on the day you buy them.

At Home—In ice cream parlors, drug stores and such places where clean food and drink are served by clean, healthy people.

Appearance—Good looking, clean cut, cool and sanitary, sturdy and healthy as it appears, you enjoy food or drink taken in its company.

Foundation—A compact, rigid metal base without pockets or projections for dirt or germs to collect in.

***No. 4B-112—Patented—29½ in. High, with Sani-Onyx Top**

¾ in. Flat Sani-Onyx Tops can be supplied on all Tables. Price see page 76½.

TABLES

SANI-ONYX TOP AND SANI-METAL BASE

No. 2-110

For bases of tables we now have Sani-Metal (Genuine White Porcelain Enamel), matching the white tops. Sani-Metal bases withstand the ruinous effects of warm, moist, salt sea air, wet brooms or mops, which raise havoc with ordinary plated or varnished tables, stools and chairs.

At Home—In ice cream parlors, drug stores and such places where food inspectors would be welcome.

Appearance—With its white, clean, sanitary, "Sani-Onyx" Top, and trim, graceful base, you will feel the food or drink served on it is pure.

Foundation—A compact, rigid metal base, as clean and sanitary as the top is pure and white.

*No. 2-110—Patented—29½ in. High, with Sani-Onyx Top

¾ in. Flat Sani-Onyx Tops can be supplied on all Tables. Prices see page 76½.

Chicago, Ill., Nov. 21, 1916.

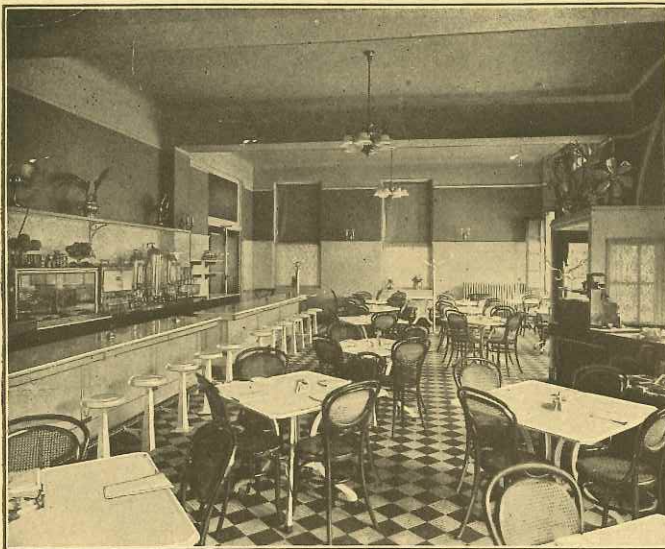

Chicago Hardware Foundry Co., North Chicago, Ill.

Dear Sirs: We are pleased to report to you that the Sani-Onyx tables purchased for our Coffee Shop are giving excellent satisfaction. They are beautiful, durable and sanitary and we are very glad to have purchased them.

Very sincerely,

Hotel Sherman Company.

Our No. 4-113 Table and 802WH Chairs are used.

Mr. Hayne, Secretary of the Hotel Vendome says: "We are very well pleased with the lunch room equipment recently purchased from you. The WHITE PORCELAIN STOOLS and TABLES with the SANI ONYX Tops, are, we believe, the most perfect sanitary stools and tables made today.

"The writer, who went through the house furnishing business, made a thorough search through the furniture market before deciding to purchase your equipment."

Our No. 451M SANI ONYX COUNTER and No. 405-349 Porcelain Enamel Stool with No. 220C Bracket, No. 4-113 Sani Onyx Top Tables and No. 32CH Chairs were installed.

Tables

SANI-ONYX TOP AND SANI-METAL BASE

Universal table in demand by caterers everywhere. Practically indestructible, neat appearing, and as permanent as the Rock of Gibraltar.

At Home—In hotels and restaurants where pure foods are served in neat, clean modern sanitary ways.

Appearance—Looking through the window or door, the table looks so clean, white and sanitary that you know a man who was so careful in selecting tables would be equally careful in selecting foods. No soiled linen or stained table tops, but a sweet, clean table for each customer.

Foundation—A compact, rigid base, with no place for dirt or insects to lodge, and can be cleaned over, under and around, and kept so.

***No. 4-113—Patented—29½ in. High, with Sani-Onyx Top**

¾ in. Flat Sani-Onyx Tops can be supplied on all Tables. Prices on application.

Single Table orders, add 10 per cent to List Prices.

Verde Antique Finish, same as Semi-Oxidized Copper, List, less current discount.

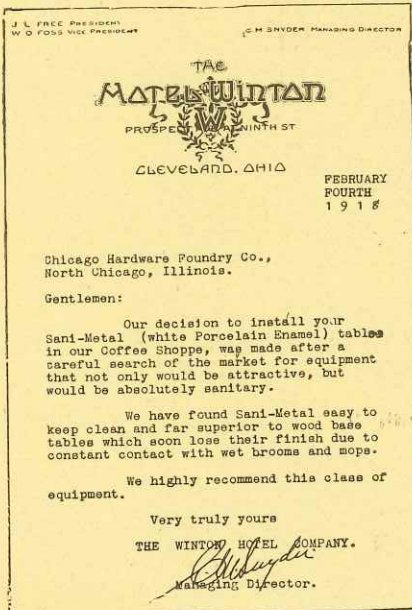

Opened and a Success

The Hotel Winton Coffee Shoppe

Immediately off the main lobby at the cigar stand you will find "something different" in Coffee Shoppes.

Unique decorations, same food as in other Winton dining rooms, quick, responsive attention, generous portions with minimum service, and consequent popular prices.

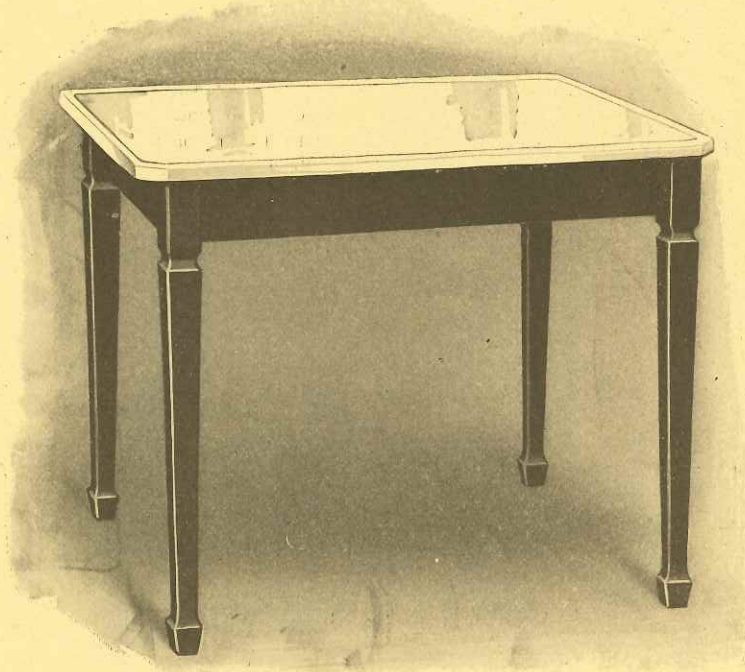

The above illustration shows our No. 4-113, 36-inch square Sani Metal Base Table, and a chair similar to our No. 805-P.

From the favorable comments expressed by various patrons in the lobby of Hotel Winton, and from the general inspection of the traveling public, this popular, white, attractive Coffee Shoppe, is a success, we believe, beyond Mr. Snyder's expectations.

Mr. Snyder's communication, as well as the testimonial of the illustration, as above, will convince you that the most durable and economical equipment to install, is our Sani-Onyx Tops—Sani Metal Base Tables, Stools, Chairs, and particularly impress upon you the economy and practicability of installing Sani Metal Base Tables, rather than wood-base tables, that soon, through their constant contact with wet brooms and mops, lose their finish.

Sani-Onyx Top—Oak or Mahogany Finish Wood Base Tables

It is well to keep in mind the cost of refinishing the wood bases of tables, particularly around the bottom of the leg, where wet brooms or mops so quickly remove the finish. This is not possible on a SANI-ONYX TOP—SANI-METAL BASE TABLE

Chippendale Style Table No. 2M

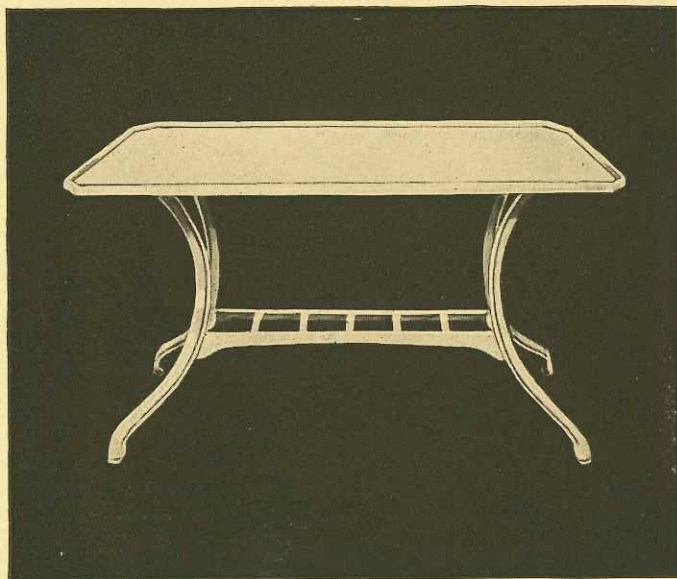

NO. 2-M WOOD BASE IN CHIPPENDALE LEG TABLE, WITH SANI-ONYX TOPS

$\frac{3}{4}$ in. Flat Sani-Onyx Tops can be supplied on all Tables. Price see page 76 $\frac{1}{2}$

NOTE—Specify size of top, if round or square, and finish of base.

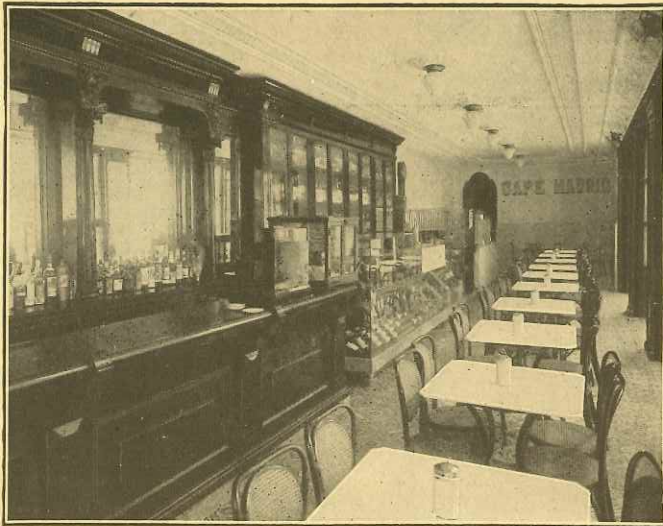

Rubber Feet, for above tables, add 72c List.

Single Table orders, add 10 per cent to List Prices.

Verde Antique Finish, same as Semi-Oxidized Copper, List, less current discount.

The success of this installation in the Fort Dearborn Hotel was instantaneous. The saving made on the laundering of table cloths alone, soon paid for the original cost of the tables. Our number 4A-113A Tables and 23H Chairs in use.

Installation, showing our No. 4-113, 30" square Sani-Onyx Top Table, with 32-CH Chair, in the Cafe Madrid, at Havana, Cuba, is just one of the many installations we have shipped to CUBA and SOUTH AMERICA. Climatic conditions in no way affect this equipment.

THE ROSENBAUM COMPANY
Pittsburgh, Pa.

August 18, 1917.

Chicago Hardware Foundry Co.,
North Chicago, Ill.

We are using in our Equipment, since the Store opened, two and one-half years ago, your No. 4A-113A Tables in our Employes' Lunch Room, where they have proven very satisfactory to us, and we believe substantiate all claims that you make for them.

We will be glad to answer any inquiries, and assure you of our satisfaction with the tables which we have.

Very truly yours,

THE ROSENBAUM CO.

(Signed) M. Rosenbaum, Superintendent.

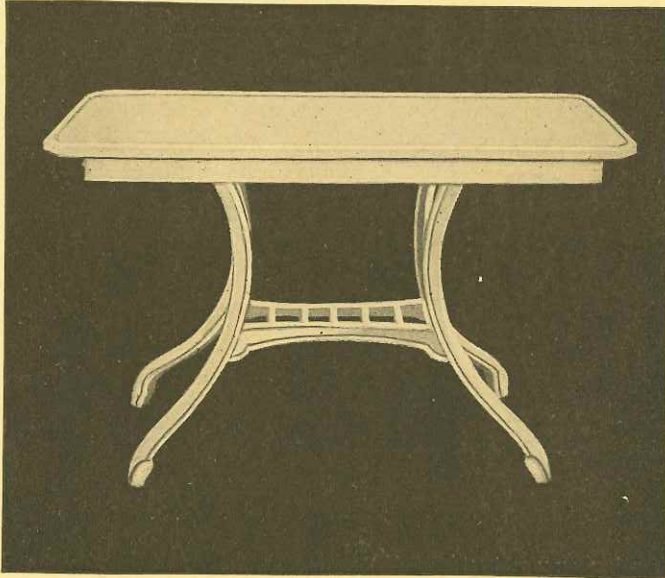

They are permanent—do not have to be replaced or revarnished. As they are cleansed with common soap and water, just as a china dish, they are as white and bright after five years' use as on they they were installed.

Canada three years ago saw the merits of Sani-Onyx—Sani-Metal fixtures and installed in one place 303 No. 4A-113A tables and 3,636 No. 19WH chairs, and is still proud of the installation.

Tables

SANI-ONYX TOP AND SANI-METAL BASE

Same as No. 4A-113A, only is provided with a steel band around under edge of top, adding to the massive appearance of the table.

*No. 4AB-113AB—Patented—29½ IN. HIGH, WITH SANI-ONYX TOP

¾ in. Flat Sani-Onyx Tops can be supplied on all Tables. Prices see page 76½.

This illustration shows the No. 309 series Booth Table in the rear of Mr. Carsow's store, the front view of this store being shown on page 48.

This store is indeed a model installation, patrons as well as owner, continually express their satisfaction.

CARSSOW DRUG COMPANY
916 Main St., Lewiston, Idaho.

Sept. 26th, 1917.

I have had your tables, chairs and stools installed fifteen months, and I surely have never regretted installing them, as they are very good looking fixtures, easy to keep clean and our patrons always feel as though they are being served at sanitary tables, and they never fail to remind us of their good looks and cleanliness.

And during the summer months, they give a very cool appearance.

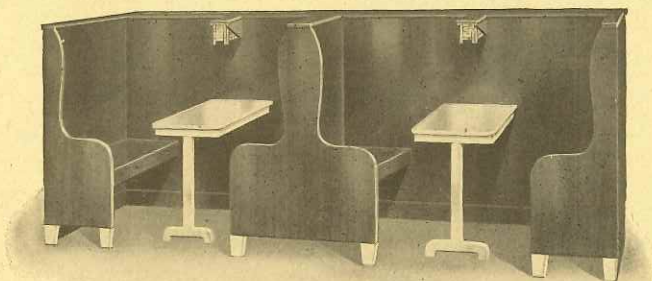

Very Truly Yours,

(Signed) CARSSOW DRUG COMPANY,

A. E. Carssow, Prop.

Tables

SANI-ONYX TOP AND SANI-METAL BASE

No. 309 Series

At Home—In booths or cozy corners that are so popular at present in all first class catering establishments.

Appearance—Just like our regular No. 308 Series table, only has but one leg and one bracket that fastens to wall or partition, leaving plenty of foot room.

Foundation—A more sturdy construction could not be conceived, the leg setting squarely on the floor and braced with brackets in the rear.

This attachment can be supplied on our No. 50 or No. 49 tables for booth use.

We do not make booths.

Your local fixture manufacturer can make these for you and equip it with Porcelain Enameled feet or legs.

No. 309 Series—Patented—30 in. High, with Sani-Onyx Tops

$\frac{3}{4}$ in. Flat Sani-Onyx Tops can be supplied on all Tables. Prices see page 76 $\frac{1}{2}$

Booths Bring Better Business

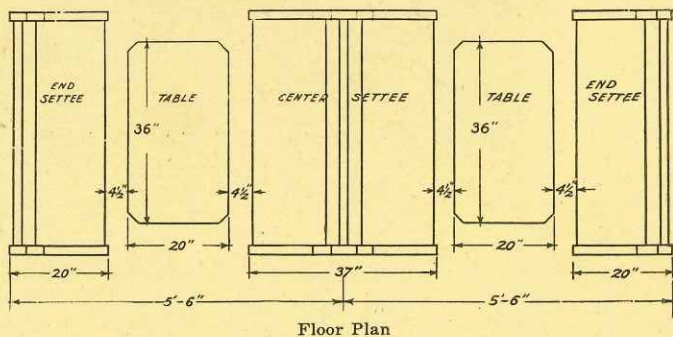

The popularity of booths increases daily. Their coziness, comfort and convenience attract and appeal. Observation has convinced us that wherever booths have been installed in drug stores, candy stores, ice-cream parlors, restaurants and cafes, they are sought and liberally patronized.

Beautiful satin-finished golden-oak or rich-rubbed mahogany booths, with the beautiful contrast of white tables to set them off, as the illustration so poorly demonstrates, will surely bring you, at the moderate price asked, enough additional soda trade to pay for themselves and more this season, and you'll profit handsomely on the added business in your general lines.

SUMMERTIME IS SWEET- HEART TIME

Think back to your own "girling days" and picture to yourself how you would have enjoyed the privacy of these booths. Your town is full of boys and girls just waiting for such a place to go—get them coming your way before your competitor beats you to it.

NO. BO-803—END OR SINGLE SETTEE

Total length, 4 feet; total height at back, 54 inches; width, 20 inches; seat 18 inches up from floor; fitted with Genuine White Porcelain Enamel Shoes; solid wood seat—paneled back. Shipped set up; shipping weight about 300 pounds. Price, \$70.40

NO. BO-803—CENTER OR DOUBLE SETTEE

Total length, 4 feet; total height at back, 54 inches; width, 37 inches; seats 18 inches up from floor; fitted with Genuine White Porcelain Enamel Shoes; solid wood seats—paneled back. Center Settee made K. D., so it will pass through any regulation-size door. Shipping weight, 400 pounds. Price \$105.60

NO. 308-121—"SANI-ONYX" TABLE

"SANI-ONYX" top 20 by 36 inches, with raised edges $\frac{3}{4}$ -inch thick on outside; base of Genuine White Porcelain Enamel, so constructed that legs are absolutely out of the way. Shipping weight, 120 pounds. Price, \$21.10

Settees will be furnished in either oak, golden-oak finish, or in birch, rich mahogany finish. Deliveries to be made in about ten days.

We believe that you will be vitally interested in these new additions to our most modern line of furniture—they are the last, but not least, of a big family of business-bringers—better ask their help for your business right now!

Tables

SANI-ONYX TOP AND SANI-METAL BASE

No. 308 Series

U. S. Government specified Sani-Onyx with raised rim and Sani-Metal base for the Panama Canal.

Circular No. 1056

Class 51—Zone Req. 3039-A (1, 2)

Reads: "No. 120 Tables, 30x60 in. Tops of White Opaque Glass (Sani-Onyx). Finish of Bases to be White Paint Enamel, to be equal to No. 308-113A, as shown in Catalogue of the Chicago Hardware Foundry Co."

These tables are used in the Washington and Cristobal Hotels on the Panama Canal.

At Home—In large restaurants, cafeterias and institutions desiring the latest, modern, sanitary equipment.

Appearance—Tops are well known Sani-Onyx, in demand always by high class caterers. Clean cut, clear lines, a table owner will be proud to own, and patrons will feel a man who is so exacting as to install this sanitary equipment will be equally exacting in foods served.

Foundation—Straight, smooth, symmetrical lines, no cross pieces to interfere with patrons' feet, or frame to interfere with patrons' knees.

You will recall how filthy wood base and marble base tables become after wet brooms and mops have removed the finish by contact with same. These bases in the Genuine Porcelain Enamel (like the finish on a bath tub) resist this trouble and leave a neat, clean white base, so pleasing to patron and owner.

We absolutely guarantee and will refund money paid for a construction that wabbles, weaves or is shaky. Table is as rigid and solid as a bed of rock or concrete.

No. 308 SERIES—PATENTED—30 IN. HIGH, WITH SANI-ONYX TOPS

$\frac{3}{4}$ in. Flat Sani-Onyx Tops can be supplied on all Tables. Prices see page 76 $\frac{1}{2}$

Size of Top, in Inches	Number	Shipping Weight, Pounds, Each	Japanned, Each	FINISH OF BASES

Single Table orders, add 10 per cent to List Prices.

Verde Antique Finish, same as Semi-Oxidized Copper, List, less current discount

The desirability of the "all white and bright" equipment is so obvious, so final, so unanswerable, that it must continue to grow in popularity year after year, making any other style of equipment appear more and more out of date.

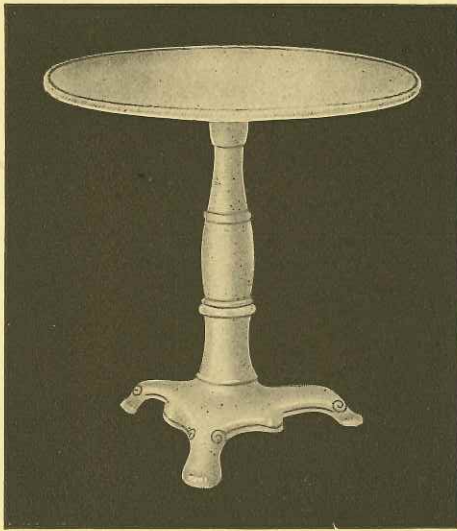

New York City appreciates and installs Sani-Onyx—Sani-Metal fixtures. Our No. 308 and No. 309 Series tables with Sani-Onyx tops and Sani-Metal (White Porcelain) base, with No. 19H chair. Note the clean, neat appearance, with ample foot and knee room for diners. Neat fixtures as a rule indicate pure, wholesome food.

U. S. GOVERNMENT SPECIFIES SANI-ONYX TOP WITH RAISED RIM AND SANI-METAL BASE FOR THE PANAMA CANAL

CIRCULAR No. 1056
Class 51—Zone Req. 3039-A (1, 2)

Reads: "120 Tables 30x60 in., finish of bases to be White Painted Enamel (Sani-Metal), tops of white opaque glass (Sani-Onyx), to be equal to No. 308-120, as shown in catalogue of the Chicago Hardware Foundry Company."

This stamp of government approval on Sani-Onyx tops, Sani-Metal base tables for the Canal Zone, where climatic conditions are severe, is the highest recommendation we could ask for our product.

Tables

SANI-ONYX TOP AND SANI-METAL BASE

Particularly adapted for use in clubs, lunch rooms or verandas where refreshments are served.

Shredded Wheat Biscuit Co., of Niagara Falls, N. Y., in their new modern up-to-date, sanitary lunch room installed our No. 1-114A 36" Sani-Onyx top tables with genuine white porcelain enamel base.

They installed equipment that was permanent, sanitary and would impress upon their employees as well as trade, that in all departments of their plant, absolute sanitation was maintained.

*No. 1-114A—Patented—29½ in. High, with Sani-Onyx Top

¾ in. Flat Sani-Onyx Tops can be supplied on all Tables. Prices see page 76½

POSTUM

For years the Postum Cereal Co., of Battle Creek, Mich., have expounded and sold health food and drinks and it was natural that they should buy Sani-Onyx Tops and Sani-Metal Base Tables and chairs for the installation in their lunch rooms. Our No. 12-113A Table and 11WBAH Chair is used.

Your desire to purchase equipment in the way of TABLES, STOOLS and CHAIRS, or SERVICE COUNTERS, for your WELFARE or LUNCH ROOM, which you contemplate opening, will be to procure the most practical, inexpensive, and durable construction on the market.

While you can procure an ordinary cheap pine table, using a plain white linen cover, we believe that you will find it more sanitary, more desirable, and more economical to purchase SANI-ONYX TOP—SANI-METAL BASE tables, stools, and chairs as they are practically good for the life of your organization. There is no laundry bill connected with the tables, and we are positive that they are the most sanitary construction on the market at the present time.

Our SANI-ONYX TOP TABLES have all the advantages of a white linen table cloth, without the laundry expense, and are more desirable, and more sanitary than a pine top table.

The bases being of cast iron PORCELAIN ENAMELED, are absolutely sanitary, and will remain that way indefinitely, while wood base tables soon become ruined through the constant contact with wet brooms and mops.

Tables

SANI-ONYX TOP AND SANI-METAL BASE

For bases of tables we now have Sani-Metal (Genuine White Porcelain Enamel), matching the white tops. Sani-Metal bases withstand the ruinous effects of warm, moist salt sea air, wet brooms or mops, which raise havoc with ordinary plated or varnished tables, stools and chairs.

No. 9-150

At Home—In drug stores, ice cream parlors, grocery, catering and fountain divisions of department stores.

Appearance—A snow white top looks clean, is clean, and will stay clean for all time.

Foundation—Strong, clean lined French legs, heavy and rigid, exclusive and sanitary.

No. 9-150—Patented—30½ in. High, with Sani-Onyx Top—Four 12 in. Round Swing Stool Seats, Mahogany or Oak Finish

¾ in. Flat Sani-Onyx Tops can be supplied on all Tables. Prices see page 76½.

Size of Top, in Inches		Number	Shipping Weight Pounds, Each	Japanned, Each	FINISH OF BASE	
					Semi-Oxid. Copper, Semi-Nickel Pl. Statuary Bronze, White Paint Enamel, Each	Genuine White Porcelain Enamel Each
30	Square	9-150S	280	\$29.00	\$34.00	\$38.00
36	Square	9-150L	300	33.90	38.90	42.90

NOTE—Specify size of top, finish of base and seats.

A plain design leg will be shipped when Porcelain Enamel is ordered.

Single Table orders, add 10 per cent to List Prices.

Verde Antique Finish, same as Semi-Oxidized Copper, List, less current discount.

Tables

SANI-ONYX TOP AND SANI-METAL BASE

For bases of tables we now have Sani-Metal (Genuine White Porcelain Enamel), matching the white tops. Sani-Metal bases withstand the ruinous effects of moist, salt sea air, wet brooms or mops, which raise havoc with ordinary plated or varnished tables, stools and chairs.

No. 9CB-150

At Home—In drug stores, ice cream parlors, grocery, catering and fountain divisions of department stores.

Mr. Moir, Hotel Morrison, Chicago, writes: "It gives me great pleasure to state that the equipment recently installed in the Hotel Morrison's coffee shop has proven very satisfactory and we are more than pleased with same."

"A feature of this table is that we can sweep the floor without having to move the chairs, thus eliminating noise and discomfort to our patrons, and furthermore prevent scraping the floor, again there is more room for the waiters as the chairs are not in the way."

Our No. 9CB-150 SANI-ONYX TOP TABLES are installed.

Childs' built a phenomenally successful chain of restaurants on this idea—all white and bright. Hundreds of others have profited by the example.

Lincoln, Neb., finds our No. 9CB-150 table with swing seat, permits the installation of more tables in a smaller space owing to space, usually taken by chairs, being saved. Sani-Onyx—Sani-Metal fixtures pull trade and hold it.

Tables

SANI-ONYX TOP AND SANI-METAL BASE

Single Combination Table and Chair

For bases of tables we now have Sani-Metal (Genuine White Porcelain Enamel), matching the white tops. Sani-Metal bases withstand the ruinous effects of warm, moist, salt sea air, wet brooms or mops, which raise havoc with ordinary plated or varnished tables, stools and chairs.

Sani-Metal came and shoddy, cheap finishes went.

At Home—In dairy lunch rooms, where patrons can sit in perfect comfort at a table with food directly in front, instead of backing into an arm chair and twisting around to eat from one side, with the probabilities of patrons spilling coffee or pie into their laps or onto their neighbors.

Appearance—Passing patrons, who would not personally discomfort themselves by eating in a dairy lunch room equipped with arm chairs, or regular customers of dairy lunch rooms, looking through windows at this neat, comfortable, absolutely sanitary equipment, would feel assured that a caterer who had made such a radical change from the old style arm chairs, would be the caterer who had taken special caution to serve pure food.

Foundation—Equipped with 12x26 "Sani-Onyx" top, with 14 in. Golden or Mahogany revolving seat with back, and our solid, compact "Sani-Metal" base.

Height of table 30 in., height of seat 21 in., width over all 26 in., length over all 31 in.

***No. 300-115—Patented—30 in. High, with Sani-Onyx Top**

Today Rochester, N. Y., gladly patronizes and supports a dairy lunch room, where patrons can sit in perfect comfort at a table with food directly in front, instead of backing into an arm chair and twisting around to eat from one side, with the probabilities of patrons spilling coffee or pie into their laps or onto their neighbors.

Particularly adapted to dairy lunch rooms, taking up minimum space for two persons; can be adapted to narrow strips of floor space, or set in rows along walls or counters.

Tables

SANI-ONYX TOP AND SANI-METAL BASE

This table can be supplied in a number of various sizes, particularly the No. 50-R-123, 36x72 which is used for cafeteria use, being particularly designed for large factory or institutional work.

The design of this table permits the construction being placed end to end, where long rows of tables are required.

No. 50R SERIES

Particularly Adapted for Use in Restaurants and Cafeterias

Has ready sale in butcher shops for display of choice cuts of meat and in grocery stores for vegetable display.

Appearance—Tops are made of "Sani-Onyx," a beautiful snow white material with a surface as smooth as polished glass.

Foundation—"Sani-Metal" base with angle legs, different from the common wood table inasmuch as it can quickly be washed to its original snow whiteness, while this operation on wood would soon wear away the finish.

No. 50R Series—Patented—30 in. High Sani-Onyx Tops

$\frac{3}{4}$ in. Flat Sani-Onyx Tops can be supplied on all Tables. Price on application.

Sani-Onyx Tables with Bases in Oak and Mahogany

Leading caterers prefer a SANI-METAL BASE TABLE.

HOTELS MORRISON, SHERMAN, CHICAGO; HOTEL TULLER, DETROIT; HOTEL WINTON, CLEVELAND, and leading caterers everywhere install SANI-ONYX TOP—SANI-METAL BASE TABLES.

They are absolutely rigid, practically indestructible, and absolutely sanitary, and do not require the extra refinishing cost, that is necessary on a woodbase table.

Tables

SANI-ONYX TOP AND SANI-METAL BASE

No. K50 Series

Table designed for home use, or for the first aid and dressing rooms of large institutions and factories.

At Home—In the kitchen of the modern housewife who desires cleanliness in food preparation, as well as pure foods, that the general health of the family may be assured.

Appearance—Tops are made of "Sani-Onyx," a beautiful snow white material with a surface as smooth as polished glass. "Sani-Onyx" is a solid material all the way through, made by melting crushed Onyx at a temperature of 2,600 degrees Fahrenheit. Made at this temperature it is impossible for it to absorb, or craze, as marble or iron porcelain coated does. The strongest acids have no effect upon it and it can be cleaned as readily as a glass dish. "Sani-Onyx" is used in all places where perfect sanitation is desired.

Foundation—A Pure White Enamel "Sani-Metal" base with angle legs and metal drawer, different from the common wood table inasmuch as it can quickly be washed to its original snow whiteness, while this operation on wood would soon wear away the enamel.

Size of Top	Number	Shipping Weight	White Paint Enamel Base	Genuine Porcelain Enamel Base
24x36 in.—1 drawer	K50-149	165 lbs.	\$19.50	\$24.70

30x48 in.—2 drawers	K50-113A	222 lbs.	29.50	34.70

When equipped with Rubber Feet, add to above prices 72c List.

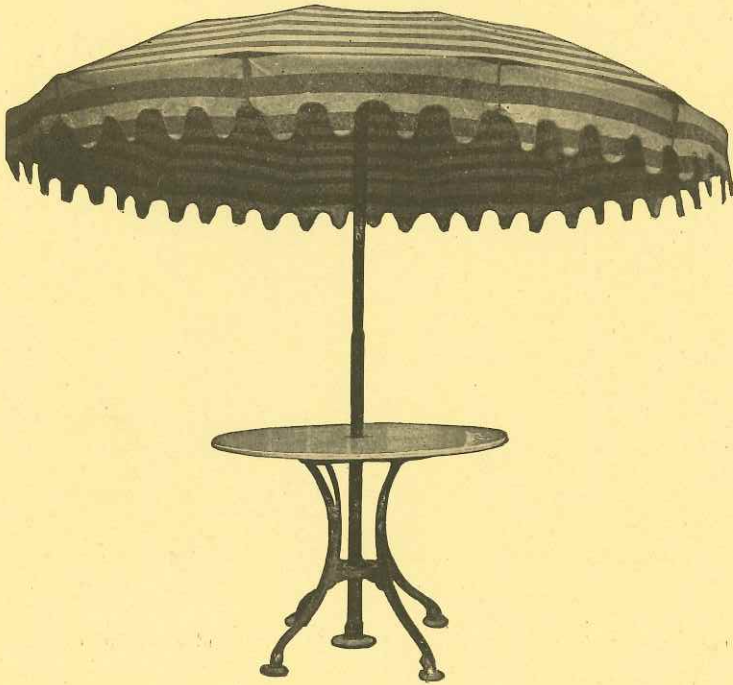

$\frac{3}{4}$ in. Flat Sani-Onyx Tops can be supplied on all Tables. Price on application.

NOTE—Specify size of top.

Verde Antique Finish, same as Semi-Oxidized Copper, List, less current discount.

Canopy Top Tables

FOR USE IN GARDENS AND ON LAWNS OF HOTELS AND CLUBS

No. 310-120—Patented—29½ in. High, with Sani-Onyx Top

Canopy can be tilted at various angles to ward off sun rays.

A table that can be sold for use in children's play grounds as well as inner courts and lawn fetes.

Used—On the lawns of country clubs, golf clubs and open air spaces, where a shaded table is required, having an unobstructed view of the course or grounds.

Appearance—A cool, white and green folding canopy top, 8 feet wide and 8 feet high. A snow white "Sani-Onyx" top, 36 in. diameter, with Green Enameled "Sani-Metal" base.

To club members warmed by the sun's rays and tired by physical exertion, this place of rest is as alluring as the green oasis is to the hot desert traveler.

Foundation—Canopy anchored to ground, independent of table, with 18 in. wormed auger attachment. "Sani-Onyx" top has hole through which passes the canopy standard. Will stand in any weather.

*No. 310-120—Complete Canopy Table\$36.00

No. 310W—With solid oak or Birch Mahogany Flat Wood Top and Canopy Top 29.00

Weight Each, Complete, 150 Lbs.

Verde Antique Finish, same as Semi-Oxidized Copper, List, less current discount.

Sani-Onyx Tops Only

To replace old wood tops that have lost their finish, or marble tops that have become discolored or cracked, or enameled tops that have become wavy and chipped, there is nothing equal to Sani-Onyx tops, which come in all standard sizes.

If your present equipment is otherwise satisfactory, you can put on new Sani-Onyx tops without buying the bases which are here shown with them.

If your bases are old and dingy, however, it is not advisable to put on new Sani-Onyx tops, as the contrast would be too prominent.

Above prices include all edges, ground and polished, and setting in of necessary bolts.

A charge of 25 cents net will be made for package of one single Table Top.

All prices quoted are f. o. b. cars, factory.

In ordering Table Tops in which you desire bolts countersunk on the underside for the purpose of fastening the top to the table frame, send along sketch showing exact location of where the bolts should be placed. This information to us will save your customer time and annoyance.

To get the price on a table with a ½" or ¾" Flat Sani-Onyx Top proceed as follows:

First, get list price on raised edge top, page 76, as all the Tables in the catalog are figured with raised edge.

Second, get list price on Flat Top, page 76½.

Find difference between raised edge and flat surface Sani-Onyx, and add to list price of table with raised edge.

EXAMPLE: No. 4B-112, 24" Round, Raised Edge, with Porcelain Enamel Base, page 49, list \$11.80

24" ¾" Flat Surface Sani-Onyx, page 76½\$9.28

24" ¾" Round Raised Edge, Sani-Onyx, page 76\$5.80

Extra price over ½" Raised Edge\$3.48

No. 4B-112, 24" Round, Raised Edge, with Porcelain Enamel Base, page 49, List, \$11.80, plus extra for ¾" Flat Surface, \$3.48.

Net List Price, \$15.28 Each.

SMALL CIRCLES AND SQUARES—8 INCHES TO 16 INCHES DIAMETER

SANI-ONYX small circles and squares with 5/16-inch thickness in centers and 3/8-inch thick raised rims. These are made in 8-10-12-13-14-16-inch circles and squares for confectioners' and bakers' use in displaying fine candies and pastries in show cases and windows. They can be used singly, in pyramids or groups, and various ways for attractive display purposes. They are snow white and clean as easily as a china dish and give that cheerful radiance of cleanliness and sanitation so much desired by establishments of this kind. They are also used as scale plates for all manner of scales, and mixing plates for dentists and chemists. Being impervious to acids and non-absorbent, they may be used in hundreds of ways in laboratories, stores and shops.

How to Order Sani-Onyx Counters

Fill in Dimensions of Counter as indicated on Diagrams

Note method of figuring Prices on Counters. Example: Counter 10 feet long, with 24 in. wide top slab. Top slab measures 14 running feet. (10-foot and 2 feet on each end is 14 feet at \$17.50 List per lineal foot, is \$245.00 List).

Always specify width of overhang of top slab wanted.

Counters for use with stools should have 7½ in. overhang; Serving Counters should have 3½ in. overhang.

Always specify height of counter and width of top slab.

Always specify if counter is to set on sanitary legs or full base to floor.

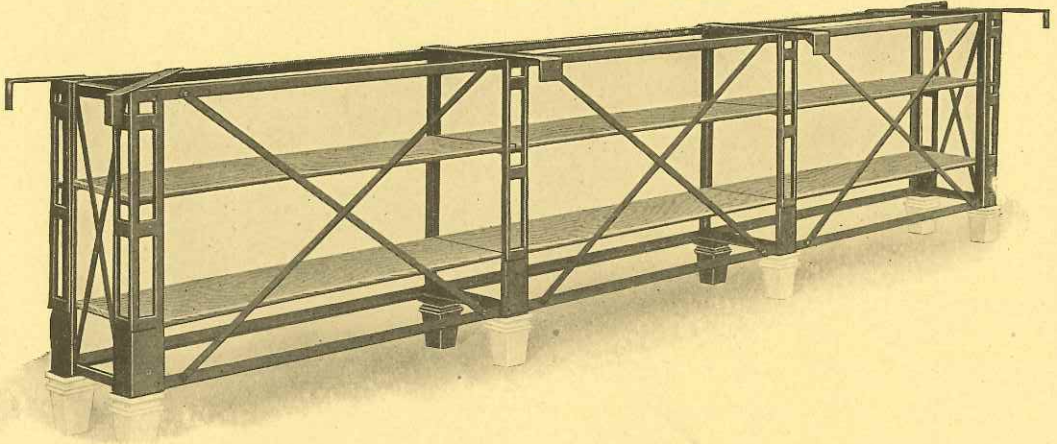

When ordering right or left hand return ends on counters, specify right or left end when facing front of counter.

In ordering counters with cut-outs in Sani-Onyx top for the installation of steam table, always mention the width, length and height of steam table to be fitted therein.

No. 456SM Soda Fountain Counters

All White Body, Black Sani-Onyx Base and Decorated Pilasters

SANI-ONYX soda fountain counters are rapidly replacing marble. SANI-ONYX is more durable than the quarried marble and much stronger. Natural marble is a sand formation, the surface of which is porous and uneven. It is easily worn away by the action of carbonic acid gas and is easily stained by the acids and coloring matter in syrups, flavors, etc. SANI-ONYX, on the contrary, is not of a porous nature. It is positively non-absorbent and will not stain. The best class of trade enjoy being served on spotless tables and from glistening white counters. This is the reason for the tremendous popularity of this class of SANI-ONYX equipment. These counters are supplied in quantities to soda fountain manufacturers and jobbers throughout the country.

No. 452M Serving Counter with Plate Glass Protector

Counter prices page 79

Several states have passed laws making it compulsory to provide plate glass protectors over counters used for displaying foodstuffs as shown below. They eliminate the annoyance of patrons handling the ready-to-serve food and prevent dust from falling into the foodstuffs.

The brackets are grey iron castings finished in white or black-baked-on enamel and aluminum with nickel plated front and end strips. See price list for sizes and prices.

**List Price Counter Protectors, Including Plate Glass and Brackets
Shipped Knocked Down**

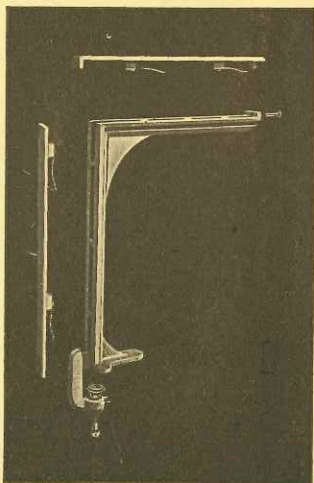

Bracket Number	Height of Front Plate	Width of Top Plate	List Price Including Plate Glass and Brackets
3	6 in.	6 in.	\$6.00 running foot
	12 in.	12 in.	7.00 " "
	14 in.	12 in.	7.40 " "
	15 in.	12 in.	7.75 " "
	18 in.	12 in.	9.00 " "

Above prices apply to Protectors 6 feet or longer, for all Protectors less than 6 feet long, prices upon application.

For the extra 7 inch wide plate glass shelf part or full length of Protector, if 3 feet long or more, extra per running foot \$2.50 list.

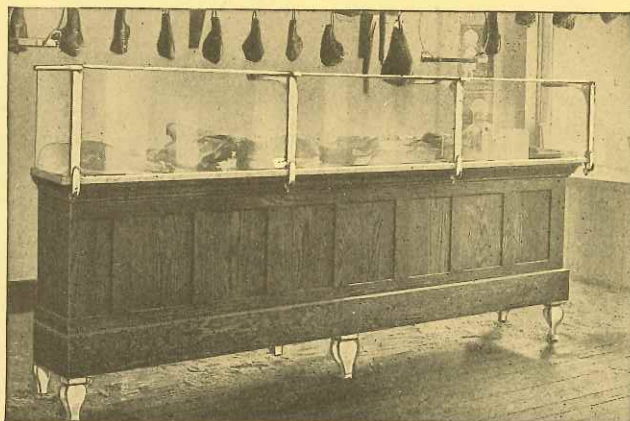

1/4 in. thick polished plate glass used in Counter Protectors.

No. 327—For Sani-Onyx, Marble or Wood Top Counters

No.	Shipping Weight	Brackets Black Enam.			Brackets White Enam.			Brackets, Top & Fron Genuine		
		Top and Front			Top and Front			Porcelain Enameled		
		Nickel Plated			Nickel Plated			50 Lots 25 Lots Less		
*327D—Division	8 lbs.	\$1.80	\$2.30	\$2.80	\$2.00	\$2.50	\$3.00	\$3.00	\$3.50	\$4.00
*327R—Right End	9 lbs.	2.20	2.70	3.20	2.40	2.90	3.40	3.40	3.90	4.40
*327L—Left End	9 lbs.	2.20	2.70	3.20	2.40	2.90	3.40	3.40	3.90	4.40

Brackets should be placed about 36 in. apart.

NOTE—All brackets made for 14x12 in. stock glass.

There are three specific reasons why our brackets are more suitable and desirable than other makes:

REASON No. 1—The No. 327 is constructed to take stock size glass, 14 in. front glass by 12 in. top glass. By using stock size glass considerable time and money are saved.

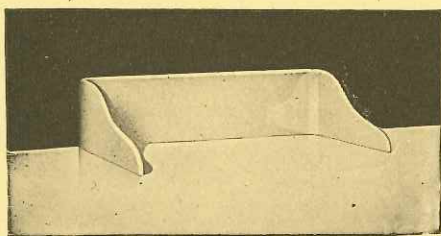

REASON No. 2—Our method of fastening glass is an innovation over the old style brackets fastened with screws and strips that catch dirt, look so ungainly and make no provision for unevenness of glass.

We have two springs that slip under lugs, taking up any unevenness of glass and leaving a clean, smooth outside surface. The same construction is used for top. One screw locks bracket.

The outside of bracket is a smooth, clean, sanitary surface from end to end, the springs holding the part snug against glass, permitting no collection of dirt and having no exposed screws or strips. A complete piece of work.

REASON No. 3—Having our own foundries, machine shop and enameling plant and believing a bracket could be standardized and sold at a price within reason, we offer this bracket at a considerably lower price than inferior brackets now on the market.

The Genuine Porcelain Enamel Sani-Metal withstands the effects of warm, moist, salt sea air; salted, pickled or bloody meats, which are particularly harmful to ordinary plated brackets. Health commissioners insist upon this finish being used in all localities.

Porcelain Enamel Set-Ups

The Badger Nut Cutter

Patented February 17, 1914

Total Height 18 in. Glass Holds 2½ Lbs. Shelled Nuts

CUTS THE NUTS AND CUTS THE COST Does Not Grind Nuts—It Cuts Them

Cuts nuts fresh for each sundae as you serve it. Freshly cut nuts go much farther and taste better. It will save at least 25 per cent on your nut bills and improve your service.

It is an attractive fixture with heavily nicked solid castings, ornamental glass container and nicked cover. Easily attached and occupies very little space.

It is strictly sanitary and complies with all food laws. No dust, dirt or other impurities have access to the nuts.

It is sold under a positive guarantee by the manufacturer. All parts are made of the highest grade of materials and will last for years.

It will pay for itself in a few weeks on any fountain, by the saving in nuts, besides serving better sundaes and sodas.

No dispenser can afford to be without it when the price is only:

"THE GREAT WHITE SANI-ONYX AND SANI-METAL WAY"

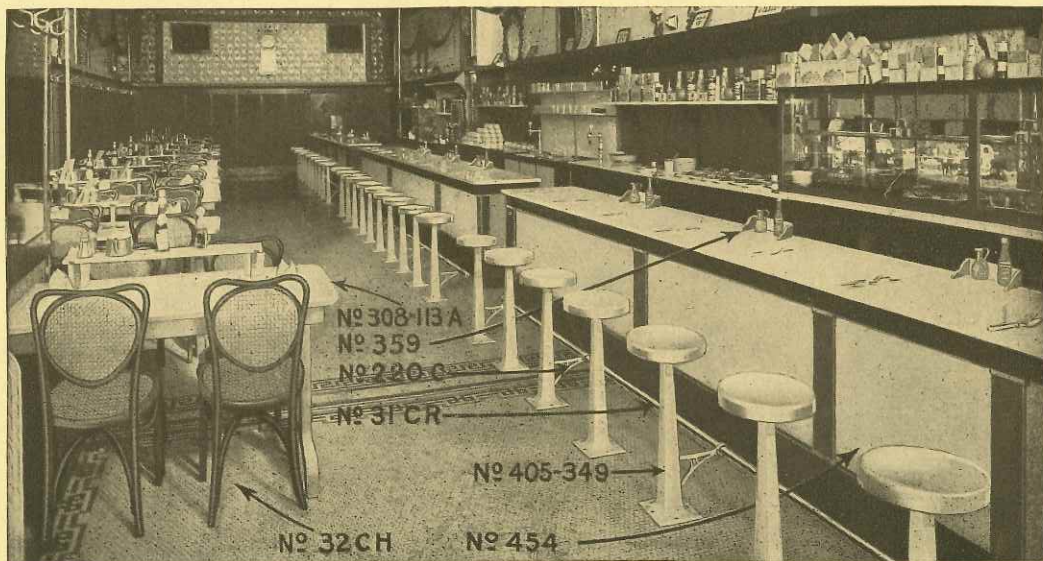

No. 411-349 White Porcelain Enameled stool with No. 256B Brass bracket with galvanized tubing that is kept bright by the rubbing of patrons' feet. No. 454 Sani-Onyx counter with iron frame and black Sani-Onyx pilasters.

Stools fastened to floor in this manner do not take up as much room as stools which can be shifted around.

They are always in line.

A patron can occupy but one, whereas, a stool that can be shifted about, they sit on one and use one or more for a footrest.

Philadelphia was one of the first cities to install our No. 454 Sani-Onyx counters with No. 405-349 Sani-Metal stools with the No. 220 bracket attached. Philadelphia progresses, so does your city. Philadelphia is proud of its installation and so would be your city.

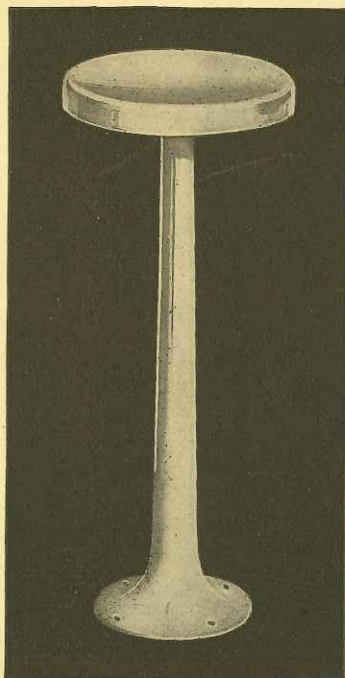

Sani-Metal Stools

New Sanitary

FOR SODA FOUNTAINS AND STORES

New Mission

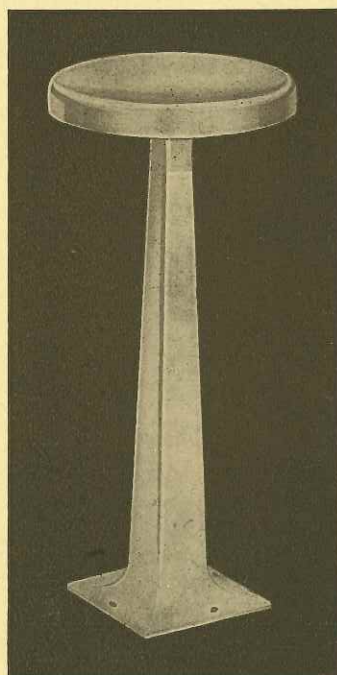

Floor or Seat Screws not Supplied

The Genuine White Porcelain Enamel (Sani-Metal) withstands the effects of warm, moist, salt sea air, wet brooms and mops, which are particularly harmful to ordinary plated or varnished stools.

Not a projection, crevice or place for dirt to find a home. Strong, clean cut lines. Will harmonize with present designs of sanitary equipment.

Designers will find sanitation and attractiveness in these clean, strong, plain stools.

No. 451M Serving Counter

Prices page 78

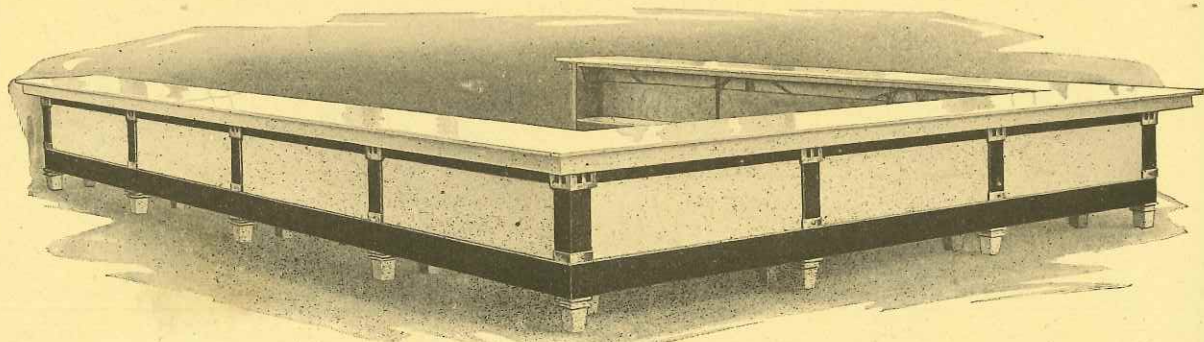

Above illustration shows space cut out for the installation of a steam table. When ordering counters of this kind with cut outs always specify the height, width and length of the steam table or cold pan to be fitted therein. An all white construction mounted on 6-inch white SANI-METAL legs.

When ordering any style counter specify if same is to be used with stools. Counters for use with stools have 7½-inch overhang of top slab. Serving counters have 3½-inch overhang.

Don't wait for a municipal health officer to recommend SANI-ONYX counters and tables! Make the change now! No matter how great the rush at meal hours SANI-ONYX counters are always brilliantly white and immaculately clean, because one rub with a cloth removes all moisture and dirt.

SANI-ONYX counters are supplied in a large variety of styles and shapes and in any length desired.

The counter shown below is a large hollow square counter constructed for the Union News Co.

JAMES R. CHAPMAN, Treas.

C. THOMPSON,
Manager, Catering Dept.

L. WILBUR MESSR, Genl. Sec.

RALPH WENDLING COOKE,
Executive Secy.

Chicago Hardware Foundry Co.,
North Chicago, Illinois.

Gentlemen: With reference to the porcelain enameled stools which you furnished for our lunch room in the Y. M. C. A. Hotel, about two years ago, I wish to say that the services of these stools have been indeed satisfactory. They are sanitary and easily cleaned, and I do not believe that there is an end to their lasting qualities. In this respect I believe that they have a great advantage over the old style of wooden stool for the reason that your enameled stools, even when they have been in use for years, and years, always look new.

It has been a pleasure to me in having had the opportunity to recommend these stools on several occasions, and I know that wherever they were put in use they have always given utmost satisfaction.

Cordially yours,

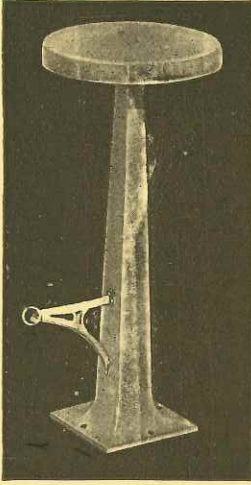

C. THOMPSON,

Manager, Catering Department.

CT:L

SANI-ONYX raised rim table top and SANI-METAL, white porcelain enamel on iron stool will satisfy the taste of the most fastidious. Table, stool and chair catalogue sent on request, or an experienced representative will call to help you choose suitable equipment.

Sani-Metal Stools

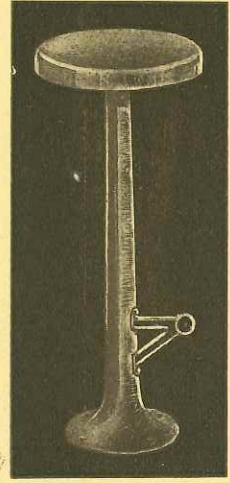

No. 405-349
With No. 220C Brass
Polished
Bracket Attached

FOR SODA FOUNTAIN AND LUNCH COUNTER

With bracket attached, permitting customer's feet to rest normally, whereas if bracket placed on counter or floor would interfere with cleaning of floor and give patron a foot leverage to break stool or counter.

It is customary to place a bracket on every other stool.

Use hot galvanized pipe for foot rail; the rubbing of feet on foot rail will keep it polished like nickel. Procure your hot galvanized pipe from any local plumbing supply house.

No. 411-349
With No. 256B Brass
Polished
Bracket Attached

Add to List Price on No. 405 or No. 411 Stools.

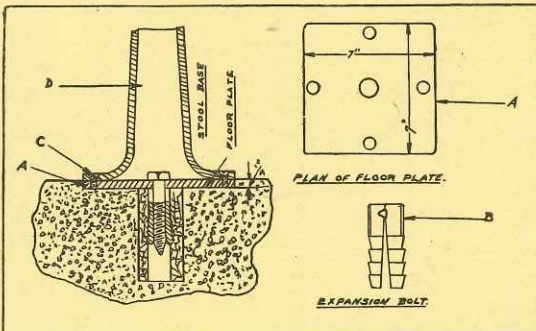

Brackets must be ordered with stools, as stools must be drilled before shipment.

PLATE FOR FASTENING STOOLS TO TILE OR CEMENT FLOOR

Drill a 2 in. hole in tile or cement floor, place a wooden block with 1 in. hole in same.

Insert expansion shell "B" in the hole in wooden plug.

Place plate "A" on floor, level with top of tile or cement floor. Insert expansion bolt and tighten.

Set stool base "D" over plate "A" and fasten "D" to "A" with machine bolts "C."

Specify plate for No. () stool to be used, and plate, expansion bolts and machine bolts will be shipped.

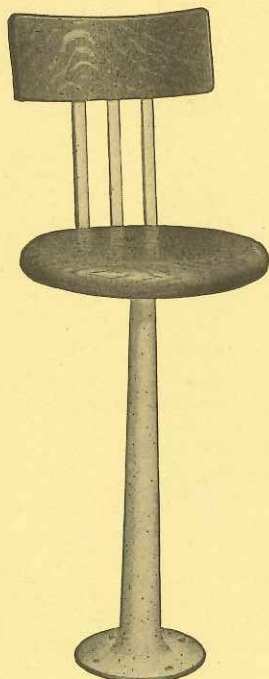

Plates **MUST** be ordered with stools, as they **MUST BE** assembled before shipment.

No. 287-405

Golden Oak or Mahogany Seat with Metal Slats, finished like the base, 14 in. high, 14 in. wide.

Compare prices with chair back stools from any source and you will find these the best buy from all angles.

Placed 1½ feet apart, these stools afford more and better seating than movable stools that tip over and get into the aisles. They keep customers from occupying extra stools for feet or wraps. The Genuine White Porcelain Enamel (Sani-Metal) withstands the effects of warm, moist, salt seat air, wet brooms and mops, which are particularly harmful to ordinary plated or varnished stools.

Sani-Metal Stools

Showing our No. 405-349 27" PORCELAIN ENAMEL STOOL, in use in the store of INDEPENDENT DRUG CO, Chicago, Ill.

Up to date stores install this type of Stool in preference to a four legged stool, being more attractive and requiring no work to keep these stools lined up.

A four legged stool at a fountain is always moved around, out in the aisle and requires someone to constantly keep them in line.

Showing our No. 405-287 30" PORCELAIN ENAMELED STOOLS in use in the HARRIS EMERY COMPANY Store, at Des Moines, Ia.

Your trade don't want to stand up to partake of refreshments, the chance to rest when partaking of refreshments is appreciated by your trade, and is a factor that will draw trade to your fountain.

No. 287-405R or 411-R, Porcelain Enamel Base, With a Porcelain Enamel 12 in. Ring and Back, With Oak or Mahogany Seat

This STOOL has found ready sale among the more discriminating Soda Dispensers for the use in front of their Fountain, as the WHITE PORCELAIN ENAMEL BASE, RING AND BACK, makes a very attractive appearance from the street, particularly when the dark Mahogany Wood Seat and back is used, and is just new enough to attract favorable comment.

While the cut of the No. 287-405R is shown above, it can be supplied in either the round 287-411R, or the square No. 287-405R as shown by the cut.

How Snug-Fit Chairs Save Space

WITH OUR NEW No. 306C-122 TABLE

The Old Way

The New Way

GENUINE BENTWOOD SNUG-FIT CHAIR

Notice how lost the table looks in illustration at the left. Notice in picture on the right how the chairs (No. 35H) come just up to the level with the table top. No projecting back. The low back fits in the small of the back comfortably; discourages tipping back in chair and straining it. Patrons cannot sit on edge of chair, so pulls it close to table, in no way obstructing the aisle.

Comparison of Space—Four 4-legged chairs with 306-C-122 table occupy a space 56 in. square. Five chairs, No. 35H with 306-C-122 table, occupy a space 40 in. square. Saves 9 square feet to each table—on ten tables 90 square feet of space.

Comparison of Freight—Wire chair, 144 lbs. dozen; No. 35H chair, 72 lbs. dozen—exactly half. Rate the same—1½ times first class.

Bentwood Chairs

LOW BACK, 4 LEG SNUG FIT

No. 35H

Oak and Mahogany Gloss

No. 35H—Shaped Seat, 14 in. Diameter, Height of Back 29½ in. Veneer Seat Only

Oak Each,

Mahogany Each,

Made with 4 legs, permitting chair to set snugly under tables, saving about 25 per cent of floor space and adding materially to the attractiveness of the room. Far superior to the gaudy, glittering furniture so commonly used heretofore.

LOW BACK, 4 LEG, SNUG FIT

*381—13x24 in. Table Panel with two 8½ in. round holes....	23 lbs.	4.00
*382—13x24 in. Table Panel with one 6½ in. and one 8½ in. round hole	23 lbs.	4.00

Extreme Width with Raised Edge, 26½ in.

Other parts made for your special use.

All parts have a raised rim around edge to prevent liquid from falling on floor.

Note sectional view. Part "A" fits into part "B," and as steam condenses in part "B" a trap is formed, preventing escape of steam. Parts "C" and "D" form a lock joint to insure a perfect fit. Part "E" is for fastening sheet metal, if separate compartments are required.

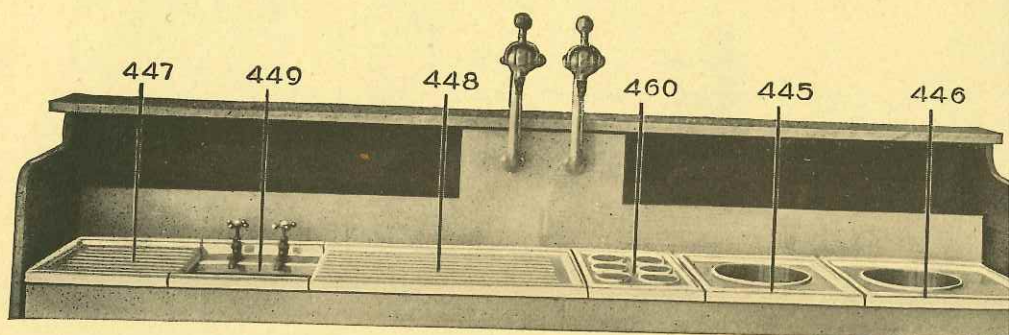

†The No. 377 End Section Panel has both ends fitted with parts like "D" and "A" (as shown in sectional view), which permits any part to be arranged to meet requirements and both ends of table to have a finished edge like left hand view of No. 371 panel. A No. 377 panel is necessary on ALL JOBS for this reason.

Inserts for Nos. 376 to 382 are supplied by Hall China Co. of East Liverpool, Ohio.
Inserts for Nos. 374 and 375 are made of tin or copper.

Sani-Metal Soda Fountain Work Board Parts

CAST IRON—PORCELAIN ENAMEL FINISH

Working Blue Prints can be Supplied

Recent laws enacted in Wisconsin, Massachusetts, New York and other leading states have caused some radical changes to be made in soda fountain construction. These laws demand sanitary construction and, with this demand, what could be more sanitary for work board construction than SANI-METAL WORK BOARDS? They won't

DENT, SCUM OR TARNISH

They require nothing but soap and hot water to keep clean. No hours of polishing and rubbing, as on metal.

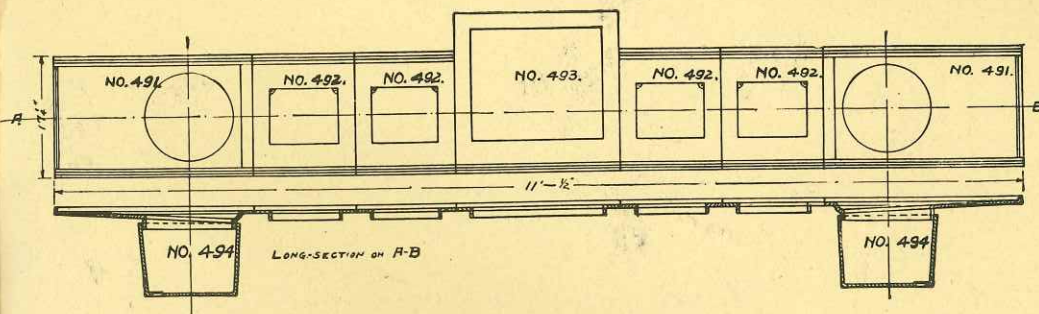

SODA FOUNTAIN WORK BOARD

No. 425 (new part) 18"x12" sink with 1 1/4" hole for combined drain and overflow in back left hand corner and 1 3/8" hole for combined hot and cold water inlet, in back well. This sink same width as 447 and 448.....	90 lbs.	Each	\$11.00	List

Sani-Metal Soda Fountain Work Board Parts

CAST IRON—PORCELAIN ENAMEL FINISH

Working Blue Prints can be Supplied

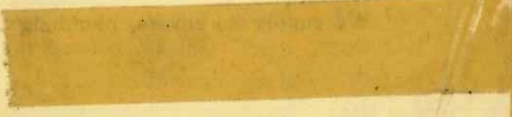

The National wide usage of CAST IRON, WHITE PORCELAIN ENAMEL SODA FOUNTAIN PARTS, on all soda fountains, is so universal, and so ultimate, that we are positive you are not going to delay getting thoroughly lined up for the coming season, arranging to construct your soda fountain, not with the old unsanitary GERMAN-SILVER work board construction, but with CAST IRON, WHITE PORCELAIN ENAMELED SODA FOUNTAIN PARTS, which being made in sectional parts, can be promptly taken out and replaced, with a different construction, or a new part, if so desired.

Can be cleaned with soap and hot water, requiring 75% less efforts to keep clean, than the old unsanitary German Silver work board construction.

(THESE ARE SEPARATE AND DISTINCT UNITS FROM THOSE SHOWN ON PAGES 108 and 109, neither of which can be used on the same construction, each one being a separate distinct construction.

- No. 491 Drain Board, with sink insert, 17¼"x27¾" with 11½" hole for sink, 36 lbs.\$5.10 Each
- No. 492 Cabinet Top, 17¼"x13¾" with square hole, 7¾"x1¼". Weight 14 pounds\$2.60 Each
- No. 493 Large Cabinet Frame, 22½"x22½" with 15½"x18" square hole, weight 20 lbs.\$3.90 Each
- No. 494 Rd. sink for use with No. 491 panel, inside dia. 12¼"x10" high, with hole for drain, weight 48 lbs.....\$7.50 Each

We supply no covers, plumbing connections, or parts outside of the item shown.

Prices Effective Aug. 15 1919

Cancelling all previous lists and catalogs and applying only on Catalog J, 1917, and Supplement No. 10.

All prices and terms subject to change without notice. No prices guaranteed.

All agreements are contingent upon strikes, fires, accidents or enforced changes beyond our control in the hours of labor.

No goods will be consigned or sold to anyone for exclusive sale in any territory.

Please adhere strictly to catalog discounts.

Terms, strictly 30 days net, 2% 10 days, f. o. b. Factory.

NOTICE

We prepay all telegrams and do not hesitate to wire customers when their interests so demand. We do not therefore accept collect telegrams.

Same terms to all, strictly 30 days net, 2% 10 days, f. o. b. Factory.

ALL Claims for shortage of weight, or overcharge must be made within one week.

In case of any defective material passing our inspector, we gladly pay transportation charges for return, but can not be expected under any circumstances to pay for work done by others whose cost invariably must be far beyond our costs, as with our special facilities, and large production, we are able to make some very low prices.

 Union Station Restaurant, Savannah, Ga.
 Cafe Madrid, Havana, Cuba.

PLAIN ENGLISH

For the past four years the Food and Drink Industry as a whole bought little if any new equipment for their stores.

During the War Period many items in our catalogs were termed by the War Industries Board "Non Essential". This automatically cut down our products and made it impossible to accumulate much if any stock.

Upon the signing of the Armistice the Food and Drink Industry came into the market for equipment in hordes, and are still in.

To take care of our increased business we are erecting a \$100,000 addition to our main plant at North Chicago.

PLAIN ENGLISH

National Prohibition is a certainty, the demand for our product will increase not decrease, it is now a year round demand and while our new plant will increase an output the coming demand will make it impossible to promise any better service in the next 8 months than we have given you in the past.

With this condition rapidly coming what difference does it make if a necessary article costs a little more or a little less? The important thing is to have the goods when you need them. If you wait and then cannot get what you need, you are a great deal worse off than if you paid a little more and got the goods. Therefore, it seems to us that our customers would do well to fill their immediate requirements now. They can do this without any fear that they will lose through a sudden reduction in prices. There will be no downward movement of consequence. But things are rapidly working along to a point where it is going to be a matter of getting goods rather than lower prices.

YOUR SALVATION AND OURS

You and we have full faith in the future, ("He who 'Bears' the United States will go broke"), but we must now provide for it, by placing now our requirements for future delivery and even though, for instance, on Porcelain Enamel Tables and Stools we cannot make immediate shipment, your order placed now will have precedence and by anticipating your requirements, you will give manufacturers and transportation companies a chance to get goods to you.

Don't build too much on someones promise of immediate delivery; rather anticipate your requirements and know from your own stock what you can deliver.

Don't overlook, now, of all times, the opportunity to sell tables, stools and chairs for employees' lunchroom in large factories and department stores.

Page	No.		Consumers' Suggested Discount	Jobbers' Discount
92			List plus 30%	Net
93			List plus 30%	Net
We reserve the right owing to our inability to procure backs as shown on pages 92 and 93 as soon as present stock is out to substitute a better design, oak or mahogany, at same list and discount.
